abdulrehmangull495@gmail.com | +923141458867 | Gulsitan Colony no 1 near awan chowk Fsd.

PROFESSIONAL SUMMARY

I am a passionate and detail-oriented Frontend Developer with 6 months of hands-on experience in building responsive and user-friendly web interfaces. I hold a Bachelor's degree in Computer Science (BSCS) and have solid proficiency in HTML5, CSS3, JavaScript, Bootstrap 5,Tailwind CSS,React.js & WordPress.I am dedicated to writing clean, maintainable code and continuously improving my skills to stay updated with modern web development trends.

Top Achievements:

1.Developed 7+ responsive websites using HTML5, CSS3, Bootstrap 5, and Tailwind CSS, ensuring full mobile compatibility and fast loading speeds.

2.Customized WordPress themes and plugins for personal projects, enhancing website functionality, layout, and performance to meet modern design standards.

3.Built a personal portfolio website to showcase projects, integrating responsive design.

4.Actively learning and applying modern frontend development trends, including component-based architecture, reusable code practices, and responsive design principles using tools like ReactJS and CSS frameworks.

CORE COMPETENCIES

- HTML5 / CSS3 / JavaScript/TailwindCss/Bootstrap5/Reactjs.
- Responsive Web Design.
- WordPress Customization.
- Cross-Browser Compatibility.

WORK EXPERIENCE

    I completed my FSc from Workers Welfare Higher Secondary School.

INTERNSHIP

Genius Mind Zone
12/2024 - 4/2025

•   Frontend Developer

PERSONAL PROJECTS
1.Portfolio:
Developed a responsive and visually appealing portfolio website to showcase my web development skills and projects.The portfolio highlights my expertise in frontend development, including proficiency in HTML5, CSS3.

2.Kitemens Landing Page:
I have created a fully responsive landing page using HTML5, CSS3 and Bootstrap5.

3.Ecommerce Website:
Developed a fully functional eCommerce website using WordPress, featuring product listings, shopping cart and secure checkout functionality.

4.PakCart WooCommerce Website:
I created PakCart,a fully responsive WooCommerce-based eCommerce website tailored for a smooth shopping experience. The site features a complete product catalog, shopping cart, and a Cash on Delivery (COD) checkout system.To improve user engagement, I added an "Add to Wishlist" option so customers can save products for later.I also implemented coupon code functionality to allow users to apply discounts at checkout for promotional offers.

To ensure a professional backend experience, I configured automated order emails with attached PDF invoices, which are sent to the admin upon every order. A contact form was integrated to capture inquiries and forward them directly to the admin's email. For better user accessibility and trust-building, I also embedded Google Maps on the contact page to show the store's physical location.

5.BR Architects Landing page:
I have created a fully responsive landing page using HTML5, CSS3 and Bootstrap5.

6.Kitemens Landing Page:
I have created a fully responsive landing page using HTML5, CSS3 and Bootstrap5.

7.Random Quote Generator:
I developed a Random Quote Generator using HTML, CSS, and JavaScript. The tool displays a new motivational or meaningful quote each time the user clicks a button, using JavaScript to randomly select from a predefined list.

8.Dashboard:
I have created a fully responsive inkomoko dashboard using HTML5, CSS3 and Bootstrap5.

9.The Coffee Nest:
A 3-page responsive website created using HTML5, CSS3 and Bootstrap5.It showcases a modern design for a coffee shop, including homepage,about page and contact page.

10.Login Form:
Design and implemented Login Form utilizing HTML5, CSS3 and demonstrating adeptness in user interface and design.
